

Performance Objectives And Instructional Cues	OUTLINE AND PRESENTATION
--	---------------------------------

	<p>Lesson Plan</p> <p>Course Title: Transportating Prisoners</p> <p>Instructional Goals:</p> <p>This block of instruction is designed to give the student the knowledge, skills and appropriate attitude(s) to receive custody/responsibility of a prisoner and safely transport the offender to a correctional facility/detention center. The student will be able to understand both the responsibilities and liability associated that a peace officer incurs during the transportation process. The basic duties and procedures of a jail staff member will also be addressed.</p> <p>A prisoner(s) will need to be transported to a correctional facility and incarcerated until his or her legal responsibilities have been fulfilled and is released from custody. Therefore, safe delivery of an arrested person to a detention center or prison for processing/incarceration is the goal along with a strong officer safety objective.</p> <p>The student will be able to answer related questions on a written examination and perform a skills during both practice and demonstrations that meet Federal and State legal standards, National Correctional and Jail standards, while practicing high security and officer/inmate safety.</p> <p>Instructional Objectives:</p> <p>Upon completion of this course, participants will be able to:</p> <ol style="list-style-type: none"> 1. Describe when a prisoner's intent of escape increases during the transportation process 2. Explain how to properly handcuff a prisoner 3. Identify the four types of items that a detention center officer may search for during the admission process. <p>Instructional Methods:</p> <p>Lecture/media, Demonstrations and student practice</p>
